Sean Connery's tuxedo, Ursula Andress' bikini, Oddjob's bowler hat, and Q's gadgets are just a few defining features of the 007 world examined in this text. Drawn from the fields of literary, film, music and cultural studies, the essays in this collection range from revitalized readings of Ian Fleming's spy novels to the analysis of Pussy Galore's lesbianism, Miss Monneypenny's filmic feminism and Pierce Brosnan's techno-fetishism. Together the essays not only consider the James Bond novels and films in relation to their historical, political and social contexts, from the Cold-War period onwards, but also examine the classic bond canon from an array of theoretical perspectives. What the text aims to show is that there is much more to the 007 series than cheap thrills, fast cars and beautiful women. Leach, among others, Lindner illustrates not only how the Bond character has conquered the globe, but has sustained its pre-eminence across six decades. Starting with the original books and moving through the films, the music and the marketing, this study should be of use to students of film, media, popular literature, marketing and cultural studies. sports car world - the BMW Z3, the latest generation of the traditional small sports car, with the advantages of being based on a tried and tested model range produced by a manufacturer of high quality cars with enviable service and spares support. Designed in Bavaria, styled in California, and built in South Carolina, the Z3 caused generations of motoring writers to dismiss it as a toy sports car, fit only for 'Estate agents, hairdressers and footballers wives,' but is it really so bad? As the Z3 becomes a modern classic, potential buyers have little information to help them sort out the best cars from the others, most Z3 books being a combination of history and data. This guide shows what to expect and what to look for, written against a background of prolonged ownership and Z3 knowledge. In *Linking Project Management to Business Strategy*, researchers were guided by the hypothesis: If projects are successful in aligning their efforts with the business strategy, they will better contribute to the long-term goals of the organization. Strategic alignment is a two-way process. Overall business strategy informs project planning and in turn, project success impacts enterprise success. Strategic alignment of a project takes into account strategic focus, operational efficiency and team leadership. The extent to which a project is focused on each dimension determines the level of "strategic maturity" for a given project. Research has shown that higher levels of strategic maturity are associated with higher levels of project success. Since 1872 when traveling salesman Aaron Montgomery Ward realized he could eliminate the middleman and sell goods directly to his customers, Americans have had an ongoing love affair with the mail-order catalog, which continues undiminished even in today's online-driven world. The practical can find deals on furniture and clothing in L.L.Bean and Sears, the extravagant can consider his and hers matching helicopters, windmills, hot-air balloons, and submarines in the Neiman Marcus Fantasy Catalog; those looking to get their pulses racing can browse Victoria's Secret and Abercrombie & Fitch; while our inner swashbuckler can travel the world through the pages of the J. Peterman Owner's Manual where Moroccan caftans, Russian Navy t-shirts, and wooden water buckets from rural China entice the imagination. In *Catalog: The Illustrated History of Mail Order Shopping*, Robin Cherry traces the timeline of these snapshots from American history and discovers along the way how we dressed, decorated our houses, worked, played, and got around. From corsets to bell-bottoms, from baby-doll dresses and Doc Martens all the way to iPods, the history of these catalogs is the history of our lives and our culture. GIs during World War II were kept company by the models in the pages of lingerie catalogs; hockey goalies fashioned makeshift shin guards out of them during the Great Depression, and creative children across the country still play with homemade paper dolls cut from clothing catalogs. A number of celebrities got their start modeling for catalogs: Gregory Peck, Lauren Bacall, Katherine Heigl, Matthew Fox, and Angelina Jolie. Jimi Hendrix and Bob Dylan both got their first guitars from the Sears catalog. Organized into categories such as clothing, food, animals, and houses, author Robin Cherry explores the vivid stories behind Sears, Montgomery Ward, Lillian Vernon, Harry & David, Jackson & Perkins, and of course, 45 years of the Neiman Marcus Christmas Book. Insightful historical commentary places

these catalogs in their social context, making this book a visual pleasure and a historically important piece of Americana. Diplomarbeit aus dem Jahr 2010 im Fachbereich BWL - Marketing, Unternehmenskommunikation, CRM, Marktforschung, Social Media, Note: 1,0, Wirtschaftsuniversität Wien (Institut für Marketing-Management), Veranstaltung: Marketing-Management, Sprache: Deutsch, Abstract: Die stetig zunehmende Marktsättigung und Verbraucherreaktanz im Bereich traditioneller Werbung hat in den vergangenen Jahrzehnten zur Entwicklung neuartiger Marketinginstrumente geführt, die diese Widerstände überwinden sollen. Product Placement hat sich dabei aufgrund seiner subtilen Wirkungsweise als besonders erfolgreiche Methode zur Beeinflussung der Markenwahrnehmung etabliert, wobei sein Einsatz in der Praxis allerdings oft nur intuitiv und unkoordiniert erfolgt. Die vorliegende Arbeit hat zum Ziel, Marketing Managern einen ganzheitlichen Zugang zum Einsatz von Product Placement in Filmen an die Hand zu geben. Hierzu wurde neben der Darstellung von Marktsituation und Rechtslage auch eine Untersuchung der verschiedenen Erscheinungsformen in der Praxis vorgenommen. Darüber hinaus werden die mit dem Instrument verbundenen Chancen und Risiken diskutiert. Im Anschluss an die Darstellung der theoretischen Konzepte wird der prozessuale Ablauf aus Unternehmenssicht anhand einer konkreten Fallstudie analysiert, die alle Phasen der spektakulären Produktplatzierung des BMW Z3 Roadsters im Film Golden Eye umfassend beleuchtet. Abschließend werden aus den empirischen Befunden der Fallstudie generelle Handlungsempfehlungen an Unternehmen abgeleitet, die sie beim Einsatz von Product Placement unterstützen sollen. This new Gold Portfolio on BMW's successful and highly popular Z3 replaces our now out of print previous title. Included are road and comparison tests, new model reports, a 'buying used' feature plus full technical and performance data on all the 4 & 6 cylinder Z3s, M Roadsters and Coupes.
