When will American poetry and poetics stop viewing poetry by racialized persons as a secondary subject within the field? Dorothy J. Wang makes an impassioned case that now is the time. Thinking Its Presence calls for a radical rethinking of how American poetry is being read today, offering its own reading as a roadmap. While focusing on the work of five contemporary Asian American poets—Li-Young Lee, Marilyn Chin, John Yau, Mei-mei Berssenbrugge, and Pamela Lu—the book contends that aesthetic forms are inseparable from social, political, and historical contexts in the writing and reception of all poetry. Wang questions the tendency of critics and academics alike to occlude the role of race in their discussions of the American poetic tradition and casts a harsh light on the double standard they apply in reading poems by poets who are racial minorities. This is the first sustained study of the formal properties in Asian American poetry across a range of aesthetic styles, from traditional lyric to avant-garde. Wang argues with conviction that critics should read minority

poetry with the same attention to language and form that they bring to their analyses of writing by white poets. The 2000 Georgetown University Round Table on Languages and Linguistics brought together distinguished linguists from around the globe to discuss applications of linguistics to important and intriguing real-world issues within the professions. With topics as wide-ranging as coherence in operating room communication, involvement strategies in news analysis roundtable discussions, and jury understanding of witness deception, this resulting volume of selected papers provides both experts and novices with myriad insights into the excitement of cross-disciplinary language analysis. Leading historian Carolyn Steedman offers a fascinating and compelling account of love, life and domestic service in eighteenth-century England. This case-study of people behaving in ways quite contrary to the standard historical account sheds new light on the much wider historical questions of Anglicanism as social thought, the economic history of the industrial revolution, domestic service, the poor law, literacy, education, and the very making of the English working class. It offers a unique meditation on the relationship between history and literature and will be of interest to scholars and students of industrial England, social and cultural history and English literature.
