"Military historian and Civil Air Patrol (CAP) member Frank A. Blazich Jr. collects oral and written histories of the CAP's short-lived--but influential--coastal air patrol operations of World War II and expands it in a scholarly monograph that cements the legacy of this vital civil-military cooperative effort"-- If there is only one book about Mohandas Karamchand Gandhi that you need to read today, make Gandhian Thought, New World, New Dimensions by Ravindra Kumar be the book. There are many Gandhian scholars around the world but Kumar is peerless. What sets Kumar apart from the other scholars is that like Gandhi he is Indian, and he understands the culture and customs behind the teachings and the philosophy. One can never study Gandhi and try to separate him from his ethnology. He is a noteworthy researcher. Kumar's interpretation of Gandhi and his ideas is outstanding. Kumar, an educator who

has authored over a hundred books, has emerged as one of the great thinkers of our time, and a leading Gandhian scholar. In this book he articulates on Satyagraha, the Sustainable Culture of Peace and how the Gandhian philosophy applies in current international conflicts, Sudan, Myanmar, Iraq, Iran, and outer countries. The book also addresses the fundamental question, is Gandhi relevant today? This book should be a required reading for all individuals who are interested in peace and the Gandhian theory. This book is a necessary read. A biography of Sir James Martin, founder of the Martin-Baker Aircraft Company and designer of the ejection seat which has saved the lives of more than 6400 aircrew. One of the finest engineers of this century, Sir James was a passionate individualist, with little time for government control. Volume 1 of the Prevention Book presents the principles of a programme for the prevention of the thalassaemia and other haemoglobin disorders, including a description of the various types of disorders requiring prenatal diagnosis, the strategies used for carrier screening, and a number of annexes listing upto date epidemiological and mutation data on thalassaemia. This book was written for use in combination with Volume 2, which describes many of the laboratory protocols in great detail. This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant. This pioneering volume of essays explores the destruction of great libraries since ancient times and examines the intellectual, political and cultural consequences of loss. Fourteen original contributions, introduced by a major re-evaluative history of lost libraries, offer the first ever comparative discussion of the greatest catastrophes in book history from Mesopotamia and Alexandria to the dispersal of monastic and monarchical book collections, the Nazi destruction of Jewish libraries, and the recent horrifying pillage and burning of books in Tibet, Bosnia and Iraq.
