The Only Guide to a Winning Investment Strategy You'll Ever Need Mar 14 2022 Investment professional Larry E. Swedroe describes the crucial difference between "active" and "passive" mutual funds, and tells you how you can win the investment game through long-term investments in such indexes as the S&P 500 instead of through the active buying and selling of stocks. A revised and updated edition of an investment classic, *The Only Guide to a Winning Investment Strategy You'll Ever Need* remains clear, understandable, and effective. This edition contains a new chapter comparing index funds, ETFs, and passive asset class funds, an expanded section on portfolio care and maintenance, the addition of Swedroe's 15 Rules of Prudent Investing, and much more. In clear language, Swedroe shows how the newer index mutual funds out-earn, out-perform, and out-compound the older funds, and how to select a balance "passive" portfolio for the long haul that will repay you many times over. This indispensable book also provides you with valuable information about: - The efficiency of markets today - The five factors that determine expected returns of a balanced equity and fixed income portfolio - Important facts about volatility, return, and risk - Six steps to building a diversified portfolio using Modern Portfolio Theory - Implementing the winning strategy - and more.

A Guide to Leading and Managing Indiana School Facilities Nov 22 2022 When school buildings are aging, a decision must be made as to whether to continue to maintain the existing building, renovate building, or build new. Very seldom is extending the existing buildings life over building a new building. If renovation costs exceed 50% of the cost of new construction, it is better to build instead of renovating. The taxpayers in your community will have much to say on whether to renovate or build new. Much emphasis should be given to taxpayer input before the school board makes a final decision. School administrators are responsible to the community for maintaining school buildings and they owe an explanation to the community of what has been done to protect existing school buildings. This book is developed to help aspiring teachers who want to become principals, business managers or superintendents, that existing buildings need to be properly maintained and functional and can continue to serve the public for many years to come.

Signs of the Wali May 04 2021 "This thesis is a study of traditional narratives which are recited and received both by villagers and pilgrims in regard to the local pilgrimage (ziarah) tradition in Pamijahan, particularly at Shaykh Abdul Muhyi's sacred site. The narratives will be examined as part of the popular beliefs of Priangan Timur or the eastern part of West Java. Locating them in the wider context of Sundanese oral and written traditions, my investigation will illuminate the nature and function of such traditions in the particular case of Pamijahan. The research will elucidate the role of the kuncen, the custodians of sacred sites, as guides and spiritual brokers who maintain the narratives. It will also be important to investigate the villagers' as well as visitors' view of the kuncen in regard to local pilgrimage. The study will also enhance comparative studies concerned with networks of holy men or saints (wali) on the island of Java (Pemberton 1994; Fox 1991: 20). I want to argue that people respond to, and participate in, saint veneration on pragmatic grounds. However, these grounds are subject to interpretation and contestation in time and space. In redefining their narratives, various individuals, such as custodians, Sufis, and even to some extent government functionaries, are considered to be authoritative persons by virtue of their capacity to conduct and manipulate narratives. As this argument develops, it will be important to understand the modes of signification in the village."--Provided by publisher.
