Living with One's Past Feb 09 2022 Alcoholism, major depression, debilitating shyness or extreme anxiety may all lead to personal failings and even moral wrongdoing that we can neither explain nor ignore. How are we to deal with these failings in our own pasts? How should we think about 'agency' or responsibility in other people who suffer from such difficulties? What does morality require of us in living with these people? In this original and eloquent work, Norman S. Care addresses these questions from both theoretical and personal perspectives, just as John Rawls's A Theory of Justice offered a set of principles by which the members of a society might reconcile themselves to their own and others' failings. Along the way, Care challenges the idea that individuals are masters of their own fate, discusses the 'persona moralism' that enables us to blame ourselves and others, and considers in a positive way the famous twelve-step Alcoholics Anonymous program, interesting because it acknowledges that 'recovery' may not occur for some alcoholics who attempt to follow it. Living with One's Past will be of interest not only to philosophers, psychologists, health-care and social service providers, but also to anyone whose life has been affected by his or her own or others' moral failings.

Living with Difference Jul 14 2022 Whether looking at divided cities or working with populations on the margins of society, a growing number of engaged academics have reached out to communities around the world to address the practical problems of living with difference. This book explores the challenges and necessities of accommodating difference, however difficult and uncomfortable such accommodation may be. Drawing on fourteen years of theoretical insights and unique pedagogy, CEDAR—Communities Engaging with Difference and Religion—has worked internationally with community leaders, activists, and other partners to take the insights of anthropology out of the classroom and into the world. Rather than addressing conflict by emphasizing what is shared, Living with Difference argues for the centrality of difference in creating community, seeking ways not to overcome or deny differences but to live with and within them in a self-reflective space and practice. This volume also includes a manual for organizers to implement CEDAR's strategies in their own communities.

The Padgett Messages-Soulful Teachings Living with Divine Love- Jan 08 2022 Between the years 1914-1920 James E. Padgett received spirit communications that introduce the Divine Love and natural love that are connected with teachings relating to the mortal soul, God and the spirit world. When James himself passed into his spirit-life his friend Eugene Morgan received 3 known communications from James 1923-1925. In the year 2017, the message of Divine Love continues as James conveys spirit-life experience that relates with his experiences as a man receiving spirit communication and now as a spirit living with Divine Love in his spirit-life in the spirit world. There is at present a worldwide readership of The Padgett Messages and now we are fortunate to have James the receiver and James the conveyer along with all the spirits who have contributed toward the realisation and fulfilment when living with Divine Love and perfecting our natural love. The Padgett Messages 1914-1920 and 2017-2018 provide a great reach of love that is an example for us all.

Living with the South Carolina Coast Sep 16 2022 Living with the South Carolina Coast is the latest volume in the Living with the Shore series that comprehensively investigates the status of a specific state's coastal region. Completely revising a previously published work in the series that dealt with South Carolina, this book not only brings up-to-date a wealth of information on migrating shorelines, selection of building sites, and pertinent regulations, but also reflects an expanded concept of the coast to include a broad range of coastal hazards.

Powerful storms have always played a major role in coastal processes in South Carolina, and the effects of Hurricane Hugo, the storm that ravaged the area in 1989, are thoroughly discussed. A series of Coastal Risk Maps are also included. These maps, graphically depicting areas of predictable erosion and storm damage potential, have been provided for every developed beach or barrier island in the state. Beyond the threat of hurricanes and coastal erosion, South Carolina, home of the Charleston Seismic Region, is also at risk for earthquakes. An entire chapter is devoted to earthquake-resistant construction, and the great Charleston earthquake of 1886 is examined in detail. Fires and floods are discussed. The Beachfront Management Act of 1990--the first state legislation of its kind that provides a system for dealing with migrating shorelines while preserving beaches for future generations--is also explained. Covering everything from a history of the development of South Carolina's coast to recommendations on how to select an island homesite, this book will be a resource to professional coastal planners and managers, residents, prospective homeowners, and naturalists.

Living with Nature's Extremes Mar 10 2022 Gilbert White has been called the most renowned geographer internationally of the twentieth century, and one who personifies the ideal of a natural resources scientist committed to the stewardship of our planet. He has educated the nation and the world on how to change the ways we manage water resources, mitigate natural hazards, and assess the environment.

Living with Consequences - BOOK ONE - Dec 07 2021 In life, we all have to make decisions based on circumstances. Regardless of the decisions we make, there are consequences for every action. In his book, *Living with Consequences*, Dr. Doyme Cantrell relates decisions that affected his ministry and his personal life. Dr. Cantrell learned some valuable lessons from his decisions and was able to turn those 'scars into stars' and become an effective warrior for Jesus Christ. Dr. Cantrell has been transparent with his life and ministry. Being transparent is not easy, but it is the first step in the healing process. *Living with Consequences* will encourage you, strengthen you, and teach you that regardless of what life throws at you, your decision to serve and follow Christ will bring victory into your life. *Consequences* is a very courageous work by an extraordinary warrior for Christ. It is a must read, not only for those struggling with decisions, but also for those seeking the body of Christ.

A Prescription for Living with Purpose Nov 18 2022 Your journey of personal growth and healing starts now—how to find gratitude and connection to endure the darkest times while reaching for the light. People give up on life when they feel hopeless, disconnected, and lack of purpose. As a psychiatrist, Dr. Adam Meadows works with people like this every day. Many people today are yearning for connection and validation and are searching for clarity as they navigate life's challenges. In today's society, it is easy to feel lost and alone even though there is an abundance of information available. But more than information, people are seeking to feel seen, heard, and understood. *A Prescription for Living with Purpose* aims to fulfill this charge and provide relief to those who feel stuck and need encouragement. While pain may be inevitable, suffering is optional. Within its pages lies a message that restores hope, provides connection, and reveals a new path toward self-discovery and healing.

Living with the Georgia Shore Aug 23 2020 The wide sandy beaches, quiet maritime forests, and vast Spartina marshes of the natural Georgia coast create a most spectacular, albeit gentle, Southern beauty. Casual visitors and longtime residents alike have been charmed by this special place. *Living with the Georgia Shore* provides an essential reference and guide for residents, visitors, developers, planners, and all who are concerned with the conditions and future of Georgia's coastal zone. Recounting the human and natural history of the islands, the authors look in particular at the phenomenon of coastal erosion and the implications of various responses to this process. In Georgia, as elsewhere in the United States, the future of the shore is in doubt as recreational and residential development demands increase. This book provides guidelines for living with the shore, as opposed to simply living on it. The former requires planning and a wise choice of property or house site. The latter ignores the potential hazards unique to coastal life and may make inadequate allowance for the dramatic changes that can occur on any sandy ocean shore. *Living with the Georgia Shore* includes an introduction to each of the Georgia isles, an overview of federal and state coastal land-use regulations, pointers on buying and building at the shore, a hurricane preparation checklist, a history of recent hurricanes in Georgia, an extensive annotated bibliography, and a guide to government agencies and private groups involved in issues of coastal development.

Living with the Ancestors Jul 22 2020 Ancestor veneration in the Maya lowlands traditionally has been associated with divine kingship and royal genealogies. But in this revisionist study, Patricia McNany challenges this view and presents a strong case for the Formative Period roots of ancestor veneration, suggesting that it is an ancient agrarian practice linked to the emergence or restrictive patterns of land tenure and unequal access to resources. Just as the decipherment of hieroglyphs has given voice to the political strategies of Classic Maya elites, so Living with the Ancestors gives voice to the agrarian strategies and political struggles of non-elite Maya. A first approach to a complete history of the Maya, it will be important reading for everyone interested in Mesoamerican culture.

Living with Itch Apr 11 2022 Find relief from chronic itch in this comprehensive guide. We have all experienced itch, whether from insect bites or dry skin, but millions of people worldwide have chronic or even intractable itch. Just like chronic pain, chronic itch interferes with a person's ability to function—and even affects quality of life. Living with Itch offers relief, drawing on the authors' vast knowledge of itch, the suffering it causes, and available treatments. Itch researchers and clinicians Drs. Gil Yosipovitch and Shawn G. Kwatra explain the cascade of physiological events that causes us to experience itch. They describe the many skin diseases, from atopic dermatitis (eczema) to psoriasis, and conditions like chronic kidney disease, lymphoma, HIV, and neuropathies that cause itch. Living with Itch provides information on preventing itch as well as topical and systemic ways to treat it. Patient and parent narratives illustrate how people cope with itch and how, with medical and social support, itch can be managed.

Playful Home Oct 25 2020 Tapping into today's trend to return to unstructured playtime and move away from over-scheduling and electronic games, Playful Home is perfectly suited to the times. Andrew Weaving celebrates the best of childhood, from his favorite games and crafts projects to the whimsical décor that kids love. The result is kids' rooms designed to feed and inspire the imagination, as well as to hold fabulous collections of toys and books. With the philosophy of integrating play into our daily lives, Playful Home looks at twelve family homes designed with children in mind, from the foyer to the back door, which stylishly embrace kids' activities and interests. The featured spaces are the kids' rooms, which combine flair and fun so successfully that they end up being the hub of the entire house. Including design ideas for displaying toys and collectibles, plus clever ways of storing them, as well as great tips on how to make murals and unique wall decorations, Playful Home inspires creativity as well as good design.

The Subtle Art of Not Giving a Fck** Nov 06 2021 #1 New York Times Bestseller Over 10 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F**k positivity," Mark Manson says. "Let's be honest, shit is f**ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F**k is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, The Subtle Art of Not Giving a F**k is a refreshing slap for a generation to help them lead contented, grounded lives.

Living with Religious Diversity Aug 15 2022 Looking beyond exclusively state-oriented solutions to the management of religious diversity, this book explores ways of fostering respectful, non-violent and welcoming social relations among religious communities. It examines the question of how to balance religious diversity, individual rights and freedoms with a common national identity and moral consensus. The essays discuss the interface between state and civil society in 'secular' countries and look at case studies from the the West and India. They study themes such as religious education, religious diversity, pluralism, inter-religious relations and exchanges, dalits and religion, and issues arising from the lived experience of religious diversity in various countries. The volume asserts that if religious violence crosses borders, so do ideas about how to live together peacefully, theological reflection on pluralism,

and lived practices of friendship across the boundaries of religious identity-groupings. Bringing together interdisciplinary scholarship from across the world, the book will interest scholars and students of philosophy, religious studies, political science, sociology and history.

Living (with) Borders Dec 27 2020 "This book focuses on the complex cultural identities of people who live in communities that straddle the border that stretches from the Adriatic to the Baltic Sea. The macro world of politics - the outcome of the Second World War, the collapse of the Soviet Union and of Yugoslavia - imposed major social, political and economic changes for each of three generations of people currently living in these communities." "A consortium of researchers from the countries in question conducted fieldwork and interviews with members of such three-generation families. All used identical and innovative methods of research and data evaluation. The results unearth an astounding wealth of data relating to people's everyday experiences, their memories of the past, and their understanding of and feelings about 'the others' across the border."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
