Crônicas De Uma Internet De Verão Apr 11 2022 Um cão vive em média quinze anos. Não é muito, se comparado ao tempo de vida dos humanos. Quando um ser humano ainda não sabe discernir a mão esquerda da direita, o cachorro já está em idade de se reproduzir. A Internet é canina em sua cronologia. Seu relógio bate mais rápido que toco de cauda de cachorro contente. Mas sua vida não é tão curta quanto a do cão. Neste aspecto a Internet está mais para gato. Tem sete vidas. Na cronologia do ciberespaço, eu diria que a Internet está passando hoje pela puberdade. Uma idade crítica, quando o corpo nem sempre obedece aos comandos do cérebro. É desajeitada, como quem cresceu rápido demais. E põe crescimento nisso! Tentar contar o número de usuários de Internet hoje é tão complicado quanto inventariar uma criação de coelhos.

Technology and Industrial Development in Japan Nov 06 2021 This book studies the industrial development of Japan since the mid-nineteenth century, with particular emphasis on how the various industries built technological capabilities. The Japanese were extraordinarily creative in searching out and learning to use modern technologies, and the authors investigate the emergence of entrepreneurs who began new and risky businesses, how the business organizations evolved to cope with changing technological conditions, and how the managers, engineers, and workers acquired organizational and technological skills through technology importation, learning-by-doing, and their own R & D activities. The book investigates the interaction between private entrepreneurial activities and public policy, through a general examination of economic and industrial development, a study of the evolution of management systems, and six industrial case studies: textile, iron and steel, electrical and communications equipment, automobiles, shipbuilding and aircraft, and pharmaceuticals. The authors show how the Japanese government has played an important supportive role in the continuing innovation, without being a substitute for aggressive business enterprise constantly venturing into unfamiliar terrains.
