The 12 officers, three killings and Master Dong Gong method have been used in this guide. It is a simplified version of the complicated tong shu and doesn't contain any confusing tables and charts. Cory Doctorow's Attack Surface is a standalone novel set in the world of New York Times bestsellers Little Brother and Homeland. Most days, Masha Maximow was sure she'd chosen the winning side. In her day job as a counterterrorism wizard for an transnational cybersecurity firm, she made the hacks that allowed repressive regimes to spy on dissidents, and manipulate their every move. The perks were fantastic, and the pay was obscene. Just for fun, and to piss off her masters, Masha sometimes used her mad skills to help those same troublemakers evade detection, if their cause was just. It was a dangerous game and a hell of a rush. But seriously self-destructive. And unsustainable. When her targets were strangers in faraway police states, it was easy to compartmentalize, to ignore the collateral damage of murder, rape, and torture. But when it hits close to home, and the hacks and exploits she's devised are directed at her friends and family--including boy wonder Marcus Yallow, her old crush and archrival, and his entourage of naïve idealists--Masha realizes she has to choose. And whatever choice she makes, someone is going to get hurt. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. NAV 2015 is a complete ERP system, which also contains a robust set of development tools to support customization and enhancement. These include an object designer for each of seven application object types, a business application-oriented programming language with .NET interface capability, a compiler, a debugger, and programming testing language support. This book is designed to take you from an introduction to the product and its integrated development tools to being a productive developer in the NAV 2015 environment. It will serve as a comprehensive reference guide, complementing NAV's Help files. You will find this book really useful if you want to evaluate the product's development capabilities or need to manage NAV 2015 based projects. Additionally, you will also learn about the NAV application structure, the C/SIDE development environment, the C/AL language, the construction and uses of each object type, and how it all fits together. Enabling power: Companies Act 2006, ss. 243 (3), 1087B (2) (3), 1292 (1). Issued: 23.09.2015. Made: 17.09.2015. Laid: 18.09.2015. Coming into force: 10.10.2015. Effect: None. Territorial extent & classification: E/W/S/NI. General Military command and control depends on the rapid and accurate transmission and receipt of trusted information up and down the chain of command At each level in the hierarchy, different aspects of the information must be analysed and the appropriate knowledge extracted as the basis for decision making The conference aims to bring together the military, scientific and industrial communities from around the world that are working to solve these challenges The conferences provide useful fora for exchanging ideas on the development and application of new technologies to the provision of military CIS services They also create a unique opportunity to discuss these issues from different points of view and share experiences amongst European Union and NATO CIS professionals and to create multinational professional networks useful to further discuss issues and identify solutions The previous name of the conference was Military Communications and Information Systems Conference MCC. You don't need a technical background to build powerful databases with FileMaker Pro 13. This crystal-clear guide covers all new FileMaker Pro 13 features, such as its improved layout tools and enhanced mobile support. Whether you're running a business, printing a catalog, or planning a wedding, you'll learn how to customize your database to run on a PC, Mac, Web browser, or iOS device. The important stuff you need to know: Get started. Tour FileMaker Pro's features and create your first database in minutes. Access data anywhere. Use FileMaker Go on your iPad or iPhone—or share data on the Web. Dive into relational data. Solve problems quickly by connecting and combining data tables. Create professional documents. Publish reports, invoices, catalogs, and other documents with ease. Harness processing power. Use calculations and scripts to crunch numbers, search text, and automate tasks. Add visual power and clarity. Create colorful charts to illustrate and summarize your data. Share your database on a secure server. Add the high-level features of FileMaker Pro Advanced and FileMaker Pro Server. In this new edition, Dr Blount continues his scholarly and very valuable contribution to this emerging area of the law. The significance of a text like this, that synthesises the law and categorises issues that arise in an area vital to our daily lives, cannot be understated. From the foreword to the first editon by In his forward to the book, the Honourable Justice Steven Rares J. This book identifies issues of contract law that are uniquely problematic for electronic contracts, such as whether clicking an "I agree" box is really an acceptance of the terms of a contract, whether acceptance of an offer by email or text message attracts the postal acceptance rule, whether notice of terms can be given by hyperlink, and whether a term of "fit for purpose" can be implied at common law for the download of software. In addition to considering the when, where and how of electronic contract formation and the incorporation and vitiation of webpage terms, the book analyses a large number of important common law appellate and superior court decisions to predict the likely law of electronic contracts for all common law jurisdictions, including Australia. Expanded to cover the new developments in this area this second edition includes a new chapter on international conventions and model laws. This book will be of immeasurable assistance to legal practitioners litigating and drafting electronic contracts, as well as to practitioners, academics, and students interested in the legal problems arising from the new information technologies. Features Detailed and scholarly coverage of the topic Applies a comparative approach Author considers over 150 common law electronic contract cases at appellate level Related Titles Seddon and Ellinghaus, Cheshire and Fifoot's Law of Contract, 10th ed 2012 George et al, Social Media and the Law, 2014 This important 2-volume reference book is the first comprehensive resource reflecting the current global status and prospects of date palm cultivation by country. This volume covers Africa and the Americas. Countries included are: Egypt, Algeria, Sudan, Tunisia, Libya, Morocco, Mauritania, Niger, Cameroon, Djibouti, Chad, Mali Somalia, Ethiopia, Burkina Faso and Senegal, as well as the United States of America and the South American countries Chile and Peru. Topics discussed are: cultivation practices; genetic resources and breeding; conservation and germplasm banks; cultivar classification and identification based on morphological and molecular markers; micropropagation and progress toward scale-up production; and advances in dates processing and marketing. Chapters are supported by tables and color photographs. Appendixes summarize traits

and distribution of major cultivars, commercial resources of offshoots and in vitro plants; and institutions and scientific societies concerned with date palm.
