***A Matter of Choice* Jun 04 2021** A Matter of Choice represents a substantive discussion of the concept of choice in human affairs, taken against the backdrop of ethics and religion. Drawing on a range of contributions, Hodgkiss demonstrates in this study that, though often not the primary issue under consideration, a concern with choice has featured continually in human thought from the Hellenistic world of the Stoics to the post-Kantian environment of modern philosophy. Moreover, he argues that the social and historical dimension of choice has been consistently underplayed, and that the role of choice in modern economic and political developments is underestimated at our peril. Through a critical account of the literature, Hodgkiss adeptly diagnoses the insufficiency of the current conception of the choice-making sovereign individual in the contemporary liberal-democratic capitalist context and outlines the implications of this philosophy for the choice-maker.

As A Matter Of Fact! Dec 30 2020 Skinny sat writing to an insurance company who had made it their best interest to exploit his claim in deceit - "suddenly" ink flowed in aggravation, what was meant to be a rather poignant spew turned into a second hand "no holds barred" account of his life. Reasons for leaving a life of security to go trucking the Arctic iceroads, work in dangerous coal mines, or load DC-3's for the northern based Buffalo Airways tell stories of childhood abuse and spontaneous travel. Skinny relates many points of view on what he thinks of society as a whole - views that at times even he wishes to understand - finally forced to settle down, turn around and look back... this is one "wild & crazy" guy's version of truth... "with a twist!"

A Matter of Time Jun 16 2022 A little known backwater of the history of the Great War is vividly rendered by a great story-teller - the central characters and events of this book are based on fact, but their surroundings and experiences are richly drawn from the author's imagination and detailed research.

A Matter of Small Matters Nov 28 2020 India in 1939 was not a free state. Under British rule, young Indian men feared they would be forced to fight in the recently declared war on Germany. Shastri is one of these young men. Already incarcerated by the age of fifteen, however, Shastri turns down political opportunities in order to suffer with his people as a freedom fighter-and suffer he did. It is several years before India is declared a free state, in 1947. By then, Vedanta is born. Vedanta forms a friendship with the wise and learned Shastri, and soon Vedanta becomes Shastri's adopted son, accepting instruction from this respected elder. Together, they must navigate a newly free India, where the rules have changed and politics are as complicated as ever. Over a forty-year span, the life of Shastri pours into that of Vedanta. Through love of God and of women, both men seek peace and enlightenment. Although theirs is a story of India, the struggles of elder Shastri and young Vedanta are universal. They too seek to find the meaning of life, the strength to face challenges, and the power to trust, in spite of impossible odds.

"Contra Legem" - a Matter of Conscience Apr 21 2020 Two female German theologians bear witness to their lifelong struggle for a groundbreaking reform of the position of women in the Roman Catholic Church. Ever since Vatican Council II they have been committed to a renewed church where women may use their talents in ordained ministry to serve the people of God. They describe the gender discrimination they faced in acquiring their theological educations, the courageous steps they have taken in recent years to respond to their priestly callings and to help other gifted women do the same. These are two intertwined autobiographies, enriched by an appendix with noteworthy historic documents from the 1960's to the present day, including correspondence with Professors Joseph Ratzinger and Karl Rahner.

A Matter of Degrees Dec 22 2022 In a wonderful synthesis of science, history, and imagination,

Gino Segrè, an internationally renowned theoretical physicist, embarks on a wide-ranging exploration of how the fundamental scientific concept of temperature is bound up with the very essence of both life and matter. Why is the internal temperature of most mammals fixed near 98.6°? How do geologists use temperature to track the history of our planet? Why is the quest for absolute zero and its quantum mechanical significance the key to understanding superconductivity? And what can we learn from neutrinos, the subatomic "messages from the sun" that may hold the key to understanding the birth-and death-of our solar system? In answering these and hundreds of other temperature-sensitive questions, Segrè presents an uncanny view of the world around us.

There were pro's and con's within the government to enter the war – and the German invasion of Belgium was not the final push to get Britain to declare war on Germany. Zach examines "Honour", as was passed down from Victorian to Edwardian England as its role in the government's final decision. Based on his award winning paper and his podcast, Zack explores the one of the factors that led to Britain's road to war.

A Matter of Context Apr 02 2021 "What this book attempts to do, is to discuss some of the changes, and some of the changes to the changes, that occur from time to time for what appears to be no reason whatsoever. Nobody truly understands turkeys all of the time, in all of their configurations. Nobody--and that includes you and me. All we can do is swing the bat and hope."

A Matter of Honour Aug 06 2021 The monument to Isaac Brock (1769–1812) on Queenston Heights in Canada, as high as Nelson's column in London, pays tribute to the military commander of all troops opposing the American invasion of Canada during the War of 1812. Brock's service during the War of 1812 includes leading the capture of Detroit. He was killed on the morning of 13 October 1812, leading a company of the 49th Foot in a counter-attack on the American lodgement atop Queenston Heights. Although Brock died and his uphill charge against the American muskets failed, the invasion was repulsed soon afterwards. **A Matter of Honour** focuses on Brock's career as a military commander and also as a civil administrator for the government of Upper Canada. Early chapters deal with his life and military service up to 1791. The book also records his command of the 49th Regiment in the Low Countries and at Copenhagen up to his arrival in Canada in 1802. Brock spent more time in Canada than any other British general who fought in the War of 1812. He faced a difficult situation in Canada, defending a long frontier with meagre resources. However, he was renowned for his resourcefulness, inspiring leadership and ability to keep opponents off-balance
